SDG 12 - Responsible Consumption and Production

Equator University of Science and Technology

Times Higher Education Sustainability Impact Ratings 2027

12.3.1 Waste tracking

The Equator University of Science and Technology (EQUSaT) measures the amount of waste generated and recycled across the university. In 2025, the amount of waste generated was 8 metric tons out of which 1 metric ton was recycled.

Waste Management	**Unit** (metric ton)
Amount of waste generated	8
Amount of waste recycled	3
Amount of waste sent to landfill	5
